RE: Recommendation for Appointment of At-Large Director to Lake County Resource Conservation District Board of Directors

Lake County Board of Supervisors:

At its regular meeting on Thursday, September 17, 2026, the Lake County Resource Conservation District (District) Board of Directors voted to recommend one of three applicants to fill the At-Large Director position vacated by Steve Campbell in March of this year. The Board of Directors considered the following applicants for the position: Wesley Baker, Margaux Kambara, and Roberta MacIntyre. Consistent with the District's Director Appointment Policy, all three applicants had formally applied through the County of Lake and attended at least one regular meeting prior to being considered for the position.

The Board of Directors deliberated carefully and ultimately voted as follows to recommend Roberta MacIntyre for appointment:

4 ayes
1 naye
0 abstentions
1 absence

The District Board of Directors believes that Roberta MacIntyre will contribute positively to its breadth of expertise, particularly given her experience with wildfire safety and prevention, which will directly enhance the District's capacity with regards to its administration of the Lake County Fire Safe Council. The Board of Directors asks that the Lake County Board of Supervisors honor its recommendation and formally appoint Roberta MacIntyre to fill the vacant At-Large Director position on the District's Board of Directors.

Sincerely,

Randall Krag
Board President
